TECHNICAL SKILLS

Front-End Technologies: Angular, JavaScript, HTML, CSS, Bootstrap, Angular Material
CMS: Strapi, microCMS
Back-End Technologies: Node.js, Express.js
Database: MySQL, MongoDB
Practices: Agile/Scrum, Backlog Management, Full-Stack Development
Tools: GitHub, GitLab, Bitbucket, Jira

PROFESSIONAL SUMMARY

Software Engineer with 5+ years of experience in Angular-based front-end development and full-stack JavaScript applications. Skilled in building responsive, high-performance user interfaces and integrating applications with backend systems using RESTful APIs. Strong collaborator with experience in agile environments and end-to-end project implementation.

EXPERIENCE

INNOVATURE SOFTWARE LABS (P) Ltd | Infopark, Kochi, Kerala   **01/2022 - Present**
Senior Software Engineer
Key Responsibilities
- Developed and maintained responsive web applications using Angular.
- Integrated RESTful APIs and collaborated with backend teams for seamless system functionality.
- Participated in Agile development processes, including sprint planning and backlog management.
- Coordinated with cross-functional teams to deliver scalable and high-performance solutions.

AI-Powered Recipe Learning Platform
- Coordinated the development of a role-based recipe learning platform enabling chefs to share cooking videos and conduct live and recorded classes with booking support.
- Managed OpenAI API integration and coordinated third-party services, including SSO authentication, Google Meet, Google Maps, and the Stripe payment system.

Technologies: Angular, Express.js, MongoDB, OpenAI API, Google Meet API, Google Maps API, SSO, Stripe

Unique Code Management System
- Designed and developed the frontend for a unique code management system with 5+ modules.
- Managed customer backlog using Agile methodology

Technologies: Angular, Backlog Management

Jobsite Platform
- Developed a full-stack job portal using React.js and Express.js to connect employers and job seekers

- Integrated Bullhorn staffing agency API for seamless data exchange

Technologies: React.js, Express.js, Bullhorn Staffing, MySQL

Content/Blog Management Platform

- Engineered a full-stack content management platform using Strapi (backend) and Angular (frontend).
- Integrated frontend and backend services to deliver a responsive user experience.

Technologies: Angular, Strapi

WARIYUM TECHNOLOGIES | Payyannur, Kannur, Kerala   **01/2020 - 01/2022**

Front-End Developer

Key Responsibilities

- Developed responsive UI components using Angular and Ionic.
- Built user-friendly interfaces to improve customer interaction and usability.
- Collaborated with backend teams to integrate APIs and optimise performance.

Navigator Store Management System

- Developed frontend features to manage sales, inventory, and customer data.

Technologies: Angular

Storefront E-commerce Platform

- Built an online grocery marketplace with a seamless product browsing and purchasing experience.

Technologies: Ionic

MOUNT ZION COLLEGE OF ENGINEERING | Kadamanitta, Pathanamthitta   **04/2014 - 09/2015**

Assistant Professor

Academic Experience

- Taught computer science courses for undergraduate students (30–50 per class).
- Delivered lectures on Software Engineering, Operating Systems, and Web Technology
- Developed curriculum and assessment materials

EDUCATION

Anna University, Chennai, Tamil Nadu   **03/2014**
M.Tech Computer Science and Engineering

Mahatma Gandhi University, Kottayam, Kerala   **06/2011**
B.Tech Computer Science and Engineering

ADDITIONAL INFORMATION

Development Tools: VS Code, MySQL Workbench, MongoDB Compass
Languages: English, Malayalam (Native), Hindi, Tamil
